Consumer Brand Loyalty & Retention — Survey Research and FAQ Development

Diveshika Yadav

Research and Analytics Intern

June 1, 2026 – August 29, 2026 | Satvify

About Satvify

Satvify is an organization committed to delivering value-driven products and services with a strong focus on quality, trust, and customer-centricity.

To strengthen customer communication and understand consumer behaviour, the company invests in research initiatives such as customer surveys and knowledge-base (FAQ) development for its official website.

Role, Duration & Objectives

ROLE

Research and Analytics Intern

DURATION

3 Months
(Jun 1 – Aug 29, 2026)

FOCUS AREA

Brand Loyalty & Customer Retention
Research

Objectives

- Design and conduct surveys to understand drivers of brand loyalty and retention.
- Analyze responses and visualize findings using pie charts.
- Interpret data and highlight the most significant trend per question.
- Create FAQs for Satvify's official website to inform customers about its services.

Roles & Responsibilities

- 1 Designed and conducted two structured surveys (Customer Retention & Brand Loyalty) using Google Forms.
- 2 Compiled and reviewed survey responses from 15–23 respondents per survey.
- 3 Converted raw response data into pie chart visualizations for every survey question.
- 4 Analyzed each chart to identify the highest-scoring response and wrote data-backed interpretations.
- 5 Compiled all chart interpretations into a structured internal report.
- 6 Drafted Frequently Asked Questions (FAQs) for the Satvify website to clarify company services for customers.

APPROACH

Research Methodology

1

Primary Research

Structured questionnaires circulated via Google Forms to gather first-hand consumer insights.

2

Data Visualization

Every survey question converted into a pie chart to represent response distribution clearly.

3

Interpretation

The highest-scoring response option in each chart was identified and explained in writing.

Survey 1: Customer Retention Survey — 15 respondents, 6 questions **Survey 2:** Brand Loyalty Survey — 22–23 respondents, 9 questions

Customer Retention Survey

15 Respondents • 6 Questions • Understanding what keeps customers coming back

Q1. What encourages you to buy again from the same company?

15 responses

Insight: Rewards (40%) are the top driver of repeat purchases.

Q2. Do loyalty programs influence your repeat purchases?

15 responses

Insight: Opinion is evenly split — Yes, No and Sometimes tied at 33.3% each.

Q3. Do personalized messages/offers from brands attract you?

15 responses

Insight: Yes and No are tied at 46.7% — personalization has a polarizing effect.

Q4. Which retention strategy works best on you?

15 responses

Insight: Membership benefits (53.3%) are the most effective retention lever.

Q5. Have you ever continued a subscription because of special offers?

15 responses

Insight: A majority (53.3%) have continued a subscription due to special offers.

Q6. What makes you stop buying from a brand?

15 responses

Insight: Poor quality (46.7%) is the top reason customers stop buying.

Brand Loyalty Survey

22–23 Respondents • 9 Questions • *Exploring trust, emotion & discovery in brand loyalty*

Q1. How often do you purchase products from the same brand again?

22 responses

Insight: Nearly half (45.5%) always repurchase from the same brand.

Q2. Does emotional connection with a brand influence your buying decisions?

22 responses

Insight: A strong majority (59.1%) confirm emotional connection drives buying.

Q3. Would you prefer a trusted brand even if it is slightly expensive?

22 responses

Insight: For 40.9%, the trade-off between trust and price depends on the product.

Q4. What factor increases your loyalty towards a brand?

22 responses

Insight: High product quality (63.6%) is by far the strongest loyalty driver.

Q5. How likely are you to recommend your favourite brand to others?

22 responses

Insight: Over half (54.5%) are very likely to recommend their favourite brand.

Q6. What makes you stop buying from a brand?

22 responses

Insight: A bad experience (40.9%) is the leading cause of brand abandonment.

Q7. How do you usually discover new brands/products?

23 responses

Insight: Social media (56.5%) is the dominant brand discovery channel.

Q8. What builds trust in a new brand?

23 responses

Insight: Reviews (60.9%) are the most important trust-building factor.

Q9. Are free trials helpful in converting you into a customer?

23 responses

Insight: Free trials help convert 43.5% of prospective customers.

FAQ Development for the Website

A set of Frequently Asked Questions (FAQs) was prepared for Satvify's official website to help customers clearly understand the services the company provides.

- Identified common customer queries and information gaps
- Drafted clear, concise, customer-friendly answers
- Structured content for direct use on the website
- Revised drafts based on reviewer feedback before final submission

FAQ

Helping Satvify customers quickly find clear answers about the company's services — reducing repetitive queries and improving trust.

FINDINGS

Key Insights

Rewards & Membership

Rewards, membership benefits, and special offers are the strongest levers for repeat purchases.

Quality Over Price

Poor quality and bad experiences drive customers away more than pricing does.

Emotional Connection

A majority of customers say emotional connection influences their buying decisions.

Product Quality Wins

High product quality is the single biggest driver of brand loyalty.

Social Proof

Social media and reviews are now the leading channels for brand discovery and trust.

Free Trials Convert

Free trials meaningfully help convert prospective customers.

Skills & Learning Outcomes

Designing structured survey questionnaires for primary research

Data visualization using pie charts to communicate findings

Translating quantitative data into actionable written insights

Creating customer-facing content aligned with brand goals

Professional research documentation and reporting

Conclusion

This internship provided hands-on exposure to research and analytics in a real business context. Survey design, data visualization, and interpretation revealed clear drivers of brand loyalty — product quality, rewards, emotional connection, and trust — while the FAQ project translated research into direct customer value.
